# Leak testing according to GOST R 50.05.11-2018 for Rosatom facilities

Leak testing according to GOST R 50.05.11-2018 for Rosatom facilities - LeakLab solutions for leak testing, vacuum systems and test equipment.

Open the current source page

## Technical and Project Information

This technical overview covers Leak testing according to GOST R 50.05.11-2018 for Rosatom facilities. It is retained for technical context; specifications, availability, dates, commercial terms, and compliance statements must be reconfirmed for every current project.

### International project context

For a current application, specifications and availability must be checked against the exact equipment configuration, destination country, operating conditions, and required standards. Legacy announcements do not constitute a current quotation or compliance statement.

### Discuss your application

Send the test object, process conditions, target sensitivity or vacuum range, acceptance criteria, quantity, and schedule. LeakLab will review the information and confirm a suitable technical route.
