Technical and Project Information

The technician prepares test objects, fixtures and media; performs approved bubble, pressure, tracer-gas or liquid-penetration leak tests; monitors safety conditions; and records results.

Expected background

- Industrial inspection, pressure testing or vacuum-equipment experience
- Safe work with gases, liquids, hoses, regulators and pressure-rated fixtures
- Accurate use of controlled procedures and inspection records
- Required personnel qualification for the assigned method and jurisdiction

The former domestic occupation code is not treated as an international qualification. Confirm location, certification, schedule, compensation and vacancy status.

WORLDWIDE PROJECT CONTACT

Send the test object or system, operating conditions, target sensitivity or pressure range, applicable standard, destination country, quantity and schedule. LeakLab will review the project scope.

mail@leaklab.org

Regarding: Gas and Liquid Leak-Test Technician

Specifications, standards, verification scope, availability and commercial terms must be confirmed for the exact configuration and destination jurisdiction before order or project acceptance.
