Technical and Project Information

This page explains the intended handling of personal data submitted through the LeakLab international website.

Information we may receive

When you contact us, we may receive your name, business contact details, company, country, message, project documents, and information about the products or services you ask about. The website may also process limited technical data needed for security and operation.

Information is used to answer enquiries, assess technical feasibility, prepare quotations, administer contracts, provide support, protect the website, and meet applicable legal obligations. We do not sell enquiry data.

Cookies and analytics

Essential cookies may be used for security, navigation, and forms. Optional analytics or marketing technologies must remain disabled until the visitor has made a valid choice where consent is required. Visitors can reject optional cookies and change or remove cookies through browser settings.

Sharing, retention, and security

Information may be shared only with service providers or project participants that need it for the stated purpose, subject to appropriate confidentiality and security arrangements. It is retained only as long as required for the enquiry, contract, legal duties, or legitimate record keeping.

To ask about access, correction, deletion, restriction, objection, or withdrawal of consent where applicable, use the contact details published on this website. The available rights and response procedure depend on the applicable law.

This English policy is an editorial launch draft. Before the public launch, qualified counsel must confirm the controller identity, lawful bases, retention periods, vendors, international transfers, consent mechanism, and privacy contact for every target jurisdiction.

WORLDWIDE PROJECT CONTACT

Send the test object or system, operating conditions, target sensitivity or pressure range, applicable standard, destination country, quantity and schedule. LeakLab will review the project scope.

mail@leaklab.org

Regarding: Privacy Policy

Specifications, standards, verification scope, availability and commercial terms must be confirmed for the exact configuration and destination jurisdiction before order or project acceptance.
